

DRY GOODS.

SPRING SHIPMENTS.

BY the arrival of the English Steamer, the Subscribers have been put in possession of large invoices of **STAPLE** and **FANCY GOODS**, shipped by the earliest vessels from different Ports of Great Britain.

ISAAC BUCHANAN & Co. also take this opportunity of intimating to their connection and the Trade generally, that their Importations during the present year into Toronto, will be on a very extended scale, while from their Invoices and advices, they feel justified in stating, that for variety and nicety, they have never on any former occasion held superior assortments.

The Subscribers will also be able to afford their customers the advantage of supplies without any general rise in price, their purchases of Staple or Heavy Goods having been contracted for prior to the close of the last year, while for their lighter and Fancy Stock, their Partner, **MR. HARRIS**, fortunately went into the market immediately on his arrival in England in January, before the rise at home.

COMPLETE ASSORTMENTS will be maintained throughout the Season: and to their Customers who have been regular, and to buyers for cash, the greatest possible inducements in price will be held out.

ISAAC BUCHANAN & Co.
