

EXTENSIVE ARRIVALS
OF
FALL AND WINTER GOODS,
AT TORONTO.

THE Subscribers are now receiving, and opening out,
their usual heavy Importations of
STAPLE AND FANCY DRY GOODS,
SUITABLE FOR THE PRESENT AND APPROACHING SEASONS.

They beg also to intimate to the Trade that, from the
lightness of Assortments in Retail hands throughout the
country, they have lately been induced to make large
additional purchases in England of WINTER GOODS,
and also of FABRICS, for the Spring Trade, which will
arrive in this Market in September and October.

These purchases have all been made under the immediate
Superintendence of one of their Partners; and for *cheapness*
and *style*, as well as *extent and variety*, will be found
unsurpassed by their Stocks on any former year.
